April 27, 2026

To Whom It May Concern,

The Board of County Commissioners is pleased to offer its full support for the continued operation and development of the local recycling center. This facility plays a vital role in promoting environmental stewardship, reducing landfill use, and supporting sustainable practices throughout our county.

The recycling center provides residents and businesses with a responsible and accessible way to manage waste materials. By diverting recyclable items from landfills, it helps conserve natural resources, reduce pollution, and lower long-term waste management costs. Its presence reflects a shared commitment within our community to protect the environment for future generations.

The Board recognizes the recycling center as an essential public service and supports efforts to maintain, enhance, and expand its operations. We encourage continued investment in its infrastructure and programs to ensure it remains a reliable and effective resource for our community.

We appreciate the opportunity to express our support for this important initiative.

Sincerely,

Ottawa County Board of County Commissioners

Scott Mortimer, Chairman

Carla Grund, Member

Duane Morris, Member
